Microdermabrasion | Scar Removal | Skin Tightening | Chemical Peels | Anti-aging | Fraxel

To keep skin looking fresh and clean for hours, **Dermablend's NEW Smooth Indulgence Mineral Powder** absorbs skin oils and controls excess shine. The natural translucent coverage allows skin to breathe and remain comfortable. The result? A soft, natural matte finish that maintains the healthy appearance of your skin.

**Dermablend Smooth Indulgence Mineral Powder (\$24, [Dermablend.com](http://Dermablend.com))** evens out skin tone and helps minimize skin redness, suitable for sensitive skin, the powder comes in two shades, Dusk and Amber. The powder can also be used for delicate highlighting on the high points of the face, such as the forehead and nose, as well as on the décolleté.

Dermablend is available at Ulta, Macy's and at [www.dermablend.com](http://www.dermablend.com).
