Are you into eco makeup products that still offer exceptional quality and finish?

Dermablend's newest set of professional makeup brushes offer just that. With four brushes currently available - Professional Foundation Brush, Professional Powder Brush, Professional Concealer Brush and Professional Face & Body Brush - combine with your natural products to help the environment in every way.

Dermablend's brushes DO NOT falter on quality - the bristles are soft and full with finishes on the tools to allow them to last you years with correct care. Cheap brushes with low impact are a thing of the past!

- So what are their features?

Black Glossy Ferrule: made from recycled aluminum
Brush Bristles: contain no animal hair

I was lucky enough to try these out with a range of my existing makeup from both eco companies and normal consumer brands and found they left my skin looking flawless with very even coverage. The packaging is light and eco and for the price - these brushes should definitely find a home in your makeup bag or bathroom cabinet!

- Recommend Use:

Professional Foundation Brush: This luxurious foundation brush was specially designed to achieve desired coverage of all our Dermablend foundations. The tapered head allows for application in even the small areas such as around the nose, lip and chin area. Start from the nose/under eye area and work out towards the jawline. Use light strokes for a final flawless finish. RRP \$30

Professional Powder Brush: The soft bristles and rounded head of this brush provides precise application of Dermablend powders. Best used with Dermablend Setting Powder for the long wear results. Start from the center of the face and work out to evenly distribute powder on the face. RRP \$32

Professional Concealer Brush: The specially designed tapered bristles of this brush allow for the most precise application of Dermablend concealers. For eye area start from the inner corner and continue towards the outer eye near the lashes. For better coverage utilize brush in a dabbing motion directly on desired area. RRP \$22

Professional Face & Body Brush: Made from high quality hairs this large fluffy rounded head allows for application on large surfaces. This brush has a convenient short handle allowing for use on both the face and the body. Dip brush directly in powder, tap off excess. Apply on desired areas using light sweeping strokes. RRP \$40
