Beauty Find! Dermablend Quick Fix Concealer: One Product, Multiple Uses

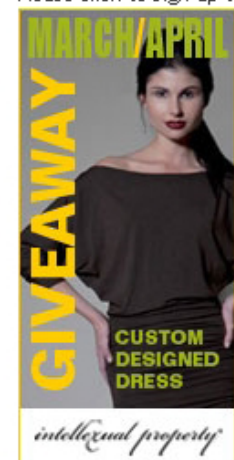

I don't know about you, but at any given time you can find at least three [concealers](#) in my cosmetic bag. I have one to cover imperfections on my face (yes, I have some), a creamy one for under my [eyes](#) and one palette that is mixable and blendable for those times you just want to be prepared for God knows what. I have been searching high and low for one product that covers the multitude of sins and imperfections to help lighten the load. Eureka! [Dermablend](#)

multitude of sins and imperfections to help lighten the load. Eureka! [Dermablend](#) has the answer for solving all of your beauty problems with their **multi-purpose Quick Fix Concealer!**

Dermablend Quick-Fix Concealer is a **full coverage concealer** for moderate to major [skin](#) flaws and imperfections. The improved lightweight formula with high purity pigments offers improved [skin tone](#) shades and texture, giving skin an even, natural complexion. It blends easily so you can control the amount of coverage you want. Available in 10 shades to perfectly match your tone, Quick-Fix provides buildable coverage that won't enhance the appearance of [wrinkles](#) or pores, and leaves skin soft and comfortable. I am so seriously in love with this product that I swear it is all you will find in my [makeup](#) bag now.

Makeup artist Jose Parron offers tips on how to make the most of this product to get a show-stopping look that lasts. Whether you're looking for brighter eyes, longer-lasting [eye shadow](#), or fuller lips, this travel-friendly product can make it happen all while covering those little imperfections. (I have tried them too!)

Bright Eyes

For a "bright-eyed effect," Parron suggests applying Quick Fix Concealer from under the eye up towards the bridge of the nose to really make eyes pop.

Eye Shadow Base

To keep your eye shadow lasting for hours, Parron says to choose a shade slightly darker than your own skin tone and then, apply Quick Fix Concealer on the lids for a smooth, long wearing canvas under your favorite eye shadows.

Full Lips

To give lips a boost, Parron recommends applying Quick Fix Concealer prior to [lipstick](#) or lip liner application. The concealer can be used around the perimeter of the mouth to create a clean surface for fuller looking lips. Finish off the look with your favorite lipstick and lip-liner.
